The Scholarship Committee,
Mohamed bin Zayed University of Artificial Intelligence (MBZUAI),
Abu Dhabi, United Arab Emirates.

Dear Members of the Scholarship Committee,

LETTER OF RECOMMENDATION FOR ABDULHAKIM ABDURRAZAK SULAIMAN

I am pleased to recommend Abdulhakim Abdurrazak Sulaiman in support of his application for the Master of Science in Computer Science at the Mohamed bin Zayed University of Artificial Intelligence (MBZUAI). I first met Abdulhakim in 2021, during his third year in the Department of Computer Engineering at Ahmadu Bello University, Zaria, Nigeria. Through my teaching and academic interactions with him, I came to recognize him as a diligent, intellectually curious, and self-motivated student with a strong interest in computing and engineering.

I taught Abdulhakim several courses, including Computer Hardware Architecture, Software Engineering and Applications, Network Technology, and System Administration and Internet Services. These courses provided opportunities to observe his understanding of computer systems, networking principles, software development, and the practical application of engineering concepts. He demonstrated an ability to grasp technical ideas, approach problems methodically, and appreciate the relationships between different components of computing systems.

I was particularly impressed by the importance he placed on understanding the principles behind the technologies he studied rather than merely learning procedures. His academic foundation in computer engineering has equipped him with a useful perspective on the design, operation, and reliability of computing systems. These qualities are valuable for advanced study in computer science, where understanding the interaction between software, hardware, networks, and computational processes is essential.

Beyond his technical foundation, Abdulhakim has demonstrated qualities that I consider important for postgraduate education. He approaches academic challenges with determination, shows a willingness to learn, and has the capacity to develop his understanding of complex subjects. His interest in computing, combined with his problem-solving mindset, provides a sound basis for further intellectual and professional development.

I believe that the rigorous academic environment at MBZUAI would provide Abdulhakim with an excellent opportunity to deepen his knowledge, broaden his technical perspective, and develop his research capabilities. His background in computer engineering would also allow him to approach computer science challenges with an appreciation of both theoretical principles and practical implementation.

DEPARTMENT OF COMPUTER ENGINEERING

AHMADU BELLO UNIVERSITY,
Zaria, Nigeria.

Vice-Chancellor: Professor Adamu Ahmed, B.Sc (Geog), M.Sc (URP), PhD (URP) ABU, FNITP, RTP

Telegrams: UNIBELLO ZARIA

I therefore recommend Abdulhakim for admission to the M.Sc. in Computer Science programme at MBZUAI and for consideration for the associated scholarship. I believe that he has the foundation, motivation, and potential to benefit from advanced study and contribute positively to the university's academic community.

Please do not hesitate to contact me should you require any further information in support of his application.

Yours Sincerely,
Dr. A. D. Adekale,

Lecturer
Department of Computer Engineering, Ahmadu Bello University Zaria
